# Hello! I'm tim.

**tim is your perfect companion for everyday mobility.**

At the **tim** mobility hubs, you can transfer to alternative means of transport. You can use stationary **(e-)car sharing, rent a car** for longer tours, get around using the **AST shared taxi service** or **charge your own e-car.**

You can get to the **tim** stations either by tram, bus, bike or by walking.

**tim** is a cheap and flexible alternative to owning a car.

At the same time, you are helping to create more space and reduce cars in Linz, keeping the air cleaner.

All this in a very simple and relaxed way.

**tim welcomes you on board!**

## Your **tim** card

When you register with **tim**, you will receive your personal **tim** card. This card is not only your key to the **tim** cars but also a charging card for almost all the **BEÖ charging stations** across Austria. You can find them at: [linzag.at/ladestellen](https://linzag.at/ladestellen)

Your **tim** card also grants you discounted tariffs for the **AST shared taxi service**.

For more information: [linzag.at/AST](https://linzag.at/AST)

# Here is how you book your **tim** car:

You can comfortably book your **tim** car via our booking platform. It is flexible, easy-to-use and intelligent. Simply **tim**.

You can access the platform using any device connected to the internet to place your individual bookings. You can thus reserve a car from the comfort of your home but also directly at the pick-up station – around the clock.

## You can easily change your **tim** booking any time:

- If things take longer than expected, you can extend your booking subject to availability.
- If you are back early, simply terminate your trip via the booking platform. That way, you will only be charged for the actual time you used the car.
- If something gets into your way, you can cancel your booking up to one minute before the reserved start time.

**Did you know?** You can synchronise your bookings with your personal calendar. So you will never forget a booking.
